

From the Desk of the Supervisor

Welcome all parents to 2019! We hope that all families enjoyed their holidays and are just as excited as we are to kick off a great start to a new year. Here at Terry Tan, we strive in providing all children with optimal learning experiences. Educators work hard on conducting observations in order to gain insight into children's interests. From here, they effectively conjure up a program that will be enticing, while formulating countless learning opportunities. In order for children to fully benefit from our programming, we kindly ask that children be dropped off by 9:30 a.m. Please call us if your child will be late, absent or has a doctor's appointment. We appreciate your cooperation regarding this matter.

It's that time of year again to start thinking about registering your child for JK. Please see posters outside the office with registration dates for each school.

When registering your child(ren) for school please make sure you indicate on the form if you require before and after school care.

Don't forget to regularly check out our twitter account for important updates. (Weather related closures etc..) @Terry_TanCC

Benefits of outdoor play even in the winter

Play allows children to use their creativity while developing their imagination, dexterity, physical, cognitive and emotional strength. Play is important to healthy brain development. It is through play that children at a very early age engage and interact in the world around them. Benefits of playing games outdoors for children: playing outdoor games can be a brilliant way to enhance learning abilities in kids, healthy physical development, boosts creativity, acquires social skills, positive attitude, improves attention span, and attains motor skills. As a rule of thumb, you should use the windchill as the best judge on if it's too cold to play outside. In general, when the wind chill is 10 degrees and above it's safe to go outside. Here are a few activities that children love: catch snowflakes, build a snow fort, create snow art (fill a spray bottle with a few drops of food color and fill with water), blow bubbles in the cold air (they will be much harder to pop and they last longer) build a snowman (family), winter hike, snow angels, due to it being darker earlier play hide & seek with glow sticks, sledding, collect pinecones and when you return home allow them to invent a creation by adding glue into the mix of found treasures

Board and Staff News

The Board of Directors will meet January 9th at 6:00 at our Eatonville location. Please let Michelle know if you would like to attend.

For the upcoming holidays~

Terry Tan will be closed on January 1st, 2019.

We will reopen January 2nd 2019

If you are paying your child's fees by cheque, please remember to "check" that the year is 2019!!

Special Dates

1~New Years Day

~Centre closed
