How Does Learning Happen?

Every child has a sense of belonging when he or she is connected to others and contributes to their world.

Every child is developing a sense of self, health and well-being. Every child is an active and engaged learner who explores the world with body, mind and senses.

Ideas For You To Do At Home

Have your child try to pull up and down their own pants during dressing or toilet learning. Have them tuck in their thumbs in the top of the pants, squeeze and pull up or down.

Hand over hand also helps as they begin.

This helps to create independence and build their confidence.

Praise them for their efforts, offer to help if they ask and most of all, have fun with it!
