

# INFANT

## CALENDAR 2022

May is the month  
Of sunshine and flowers  
Birds in their nests,  
And one or two showers.  
Games to play and kites to fly  
Or just looking at the sky.  
We could spend a year this way  
If the year were made of May.

### Special Days

8<sup>th</sup> - Family Day

13<sup>th</sup> – Planting seeds

23<sup>rd</sup> – Victoria Day (Centre closed)

### Skills we will be working on

Attention regulation:

Reading books with action

Observe infants while they are focused on play.

When they do get distorted give them cues to continue with their play exploration.

Expressive language:

Vocalizing and babbling

Words with gestures example, “more” and “finish.”

### Did you know?

Nap time provides children the chance to rest and have quiet time. Naps also help keep children from becoming overtired, which not only takes a toll on their moods but may also make it harder for them to fall asleep at night.

### How Does Learning Happens?

“Young children experience their world as an environment of relationships, which affect virtually all aspects of their development” (pg. 23 HDLH).

### Ideas to do at home

Hooray! Spring is finally here! Take advantage of this season by:

1. Planting flowers
2. Jumping in puddles
3. Go hiking
4. Bird watching
5. Butterfly gazing

### Reminders

As the season has changed please update your child’s extra clothing and shoes.
