

# Preschool 2 Calendar

## MAY 2022

### Classroom news

We will be saying “see you later” to Hazel and Christine as they are moving to different roles this month. We would like to welcome Andrea and Delia as the new Preschool 2 educators.

### Song of the month

Every mouse and bumble bee  
Every bird up in a tree  
Every caterpillar and ladybug  
Loves to feel his mother's hug  
Every bear so fat and funny  
Loves his mother more than honey  
Just as woodland creatures do  
Mother's that's how I Love You

### Special Days

8th – Mother's Day

23rd – Victoria Day (centre closed)

### We will be working on

#### Redirecting

Preschool 2 is constantly making sure that children are safe in the classroom and on the playground. Children are always welcome to explore the classroom; educators encourage children to exercise sharing, communicating, interacting and listening to their peers. When children tend to display negative behavior we try to

redirect them to a more positive situation or experience.

### How Does Learning Happen?

**Engagement:** According to how does learning happen. “When children are able to explore the world around them with their natural curiosity and excitement, they are fully engaged. Through play and inquiry, they develop skills such as problem solving, creative thinking, and innovating, which are essential for learning and success in school and beyond” (How Does learning Happen – pg.7).

### Did you know?

Our Preschool classroom embarks on Nature walks. On our walks we get to explore animals, flowers, water in the creek and much more! This is a great opportunity to support the children's observation and language skills as we have discussions about what we see on these walks together.

### Reminders

Spring is finally here, and with that comes unpredictable weather conditions. Parents, please provide a few extra clothing items for your child. In that way pre-schoolers will be prepared for any weather changes.

### Ideas for home

During this wonderful spring time weather, you and your family may find yourselves spending more time outdoors. Here are some things you can do at home

- build a simple bird feeder
- camp out in the living room
- collect rocks and paint them
- plant flowers together
- splash in puddles
